This booklet is issued to Year 10 students of Francis Greenway High School. This booklet provides information to students and parents/carers about:

- (i) Assessment procedures and grades
- (ii) Record of School Achievement (RoSA)
- (iii) FGHS policy for late/non-completion of assessment tasks
- (iv) Applications for considerations of Illness/Misadventure
- (v) Malpractice
- (vi) Assessment schedules for each course

ASSESSMENT PROCEDURES AND GRADES

The purpose of assessment is to judge competence on the basis of performance. This judgement is made on the basis of evidence which may be in a variety of forms. Schools are responsible for awarding each student who completes a Stage 5 course (except [Life Skills](#) and [VET](#) courses) a grade to represent that student's achievement in accordance with the A to E grade scales detailed below.

A to E grade scales for Stage 5 courses

- Course performance descriptors are available on [syllabus pages](#) for Stage 5 Board Developed Courses
- The [Common Grade Scale](#) is used for all other Stage 5 courses offered.

Teachers will assess the student's actual performance, not potential performance. Assessment marks will not be modified to take into account possible effects of illness or domestic situations. Schools may offer substitute tasks or, in exceptional circumstances, estimates based on other tasks.

Assessment tasks will generally be one, or a combination of:

- Scheduled tasks completed in-class under examination conditions.
- Hand-in tasks that are submitted via an online platform or handed-in by a due date and time.
- Practical assessment completed in class.

At least two calendar weeks notice of the details of a task will be given. Tasks are due at the beginning of the lesson of that subject on the due date. Students will sign the Assessment Task Register document when they have received their task, submitted their task, and had their task

marked and returned. School reports will be issued twice during the school year. This report will show the student's level of achievement of relevant outcomes for each course.

RECORD OF SCHOOL ACHIEVEMENT (ROSA)

Eligible students who leave school before receiving their Higher School Certificate (HSC) will receive the NSW Record of School Achievement (RoSA). The RoSA is a **cumulative credential** in that it allows students to accumulate their academic results until they leave school.

It shows a comprehensive record of academic achievement. This includes:

- completed courses and the awarded grade
- courses a student has participated in but did not complete before leaving school
- the date the student leaves school.

It is of specific use to students leaving school prior to the HSC.

- Students who complete Year 10 courses and leave school prior to receiving their HSC will receive a Record of School Achievement (RoSA).
- Students who are not eligible for the RoSA but leave school will receive a Transcript of Study.
- Students who leave before the HSC and are eligible for a Vocational Education Training (VET) credential will receive this as part of their RoSA package.
- The RoSA records completed Stage 5 and Preliminary Stage 6 courses and grades, and participation in any uncompleted Preliminary Stage 6 courses.

An A to E grade is provided for all courses (except VET and Life Skills) the student has satisfactorily completed. These grades are:

- based on student achievement in their assessment work
- submitted by the school to NSW Education Standards Authority (NESA) in Term 4
- monitored for fairness and consistency by NESA.

What about Life Skills Courses?

- Life Skills is a curriculum option for students with special education needs.
- Students who leave school before completing their HSC, but who have successfully completed Year 11 or Year 10 Life Skills courses will be issued with a RoSA.
- A more detailed report, called the Profile of Student Achievement, is included with the RoSA, giving students richer details of their achievements from each Life Skills course.

[For more detailed information about the RoSA on the NSW Education Standards Authority website, click here.](#)

FRANCIS GREENWAY HIGH SCHOOL POLICY FOR LATE/ NON-COMPLETION OF ASSESSMENT TASKS – YEAR 10

Assessment tasks will be scheduled to be completed /submitted to teachers on or by specified dates throughout each course. **Attendance, on the day the assessment task is either to be performed or submitted, is essential.** If a student knows beforehand that they are going to be absent on the day that an assessment task is due, or is to be conducted, the student must notify their class teacher beforehand.

1. If a student is unable to complete any hand-in assessment task, including online submission, by the due date, they may submit it unfinished and receive marks according to the quality of the work done.
2. If however, the student
 - (a) does not hand in any evidence of work on or before the due time/ date; or
 - (b) is absent from a scheduled in-class assessment task, they will receive a zero (0) mark.
3. If a student is found to have engaged in malpractice in an assessment task, they may be awarded a zero (0) mark.

In either 2 (a) or (b) above, the student may request *consideration for illness or misadventure*. This request is to be submitted using the prescribed school form to the class teacher or head teacher within two school days following the specified due date for the task or by the second day of return to school after an absence which encompasses the due date. See below for further information.

If a student receives a zero mark or has not made a satisfactory attempt at the task, a non-completion warning will be issued. The non-completion warning will outline the task requirements and it will detail the new due date for the completion of the task. This task must be submitted by the new due date, and it must demonstrate a satisfactory attempt. If not done so, the task will be considered as not attempted. An accumulation of non-completion warnings across a variety of assessment tasks in any one subject will mean that a student may be issued with a non-completion N Determination for that subject. It may place their ability to attain a RoSA in jeopardy.

APPLICATIONS FOR CONSIDERATION OF ILLNESS/MISADVENTURE

Students who have a special circumstance that prevented them from completing an assessment task by the due date or attend a scheduled test/ practical assessment, may request *consideration for illness or misadventure*. This application form is available from your class teacher or head teacher, is in this booklet or can be downloaded from the school website. The form must be submitted within two school days following the specified due date for the task or by the second day of return to school after an absence which encompasses the due date.

An Application for Consideration- Illness/Misadventure requires the following information:

1. A completed Application for Consideration- Illness/Misadventure form (available from your class teacher or head teacher, is in this booklet or can be downloaded from the school website).
2. Supporting documentation, such as a Medical Certificate and/or parent explanation letter.
Note: written justification includes parent/carer communication with the school (SMS or phone call) to explain the student's absence.

Applications may be in respect of:

- Illness or physical injuries suffered directly by the student which allegedly affected the student's performance in the assessment (e.g.: asthma attack, cut hand).
- Misadventure – any event beyond the student's control which allegedly affected the student's performance in the assessment (e.g., death of a friend or family member, involved in traffic accident).

Limitations on Applications

Students may only apply in relation to circumstances that occur immediately before or during an assessment and that affect their performance in the assessment.

You cannot submit an application on the basis of:

- long term illnesses such as asthma, epilepsy, or glandular fever, unless you suffer a flare up of that condition during the assessment
- the same grounds for which you received disability provisions, unless you experience additional difficulties during an assessment
- Computer/printer/technology malfunctions or difficulties
- Misreading the assessment timetable, instructions or notification
- Not understanding assessment commitment when on approved family leave

If you are unsure whether you are eligible, you should ask your class teacher.

The application will be reviewed by the class teacher and the head teacher of the course. A determination will be made and a recommendation given. **Once this determination is made, the decision is final.**

WHAT IS MALPRACTICE?

Cheating or malpractice is dishonest behaviour by a student that gives them an unfair advantage over others. Most students understand what cheating in an examination means, but there are other types of behaviour that are also considered cheating.

Examples of behaviour considered to be cheating include:

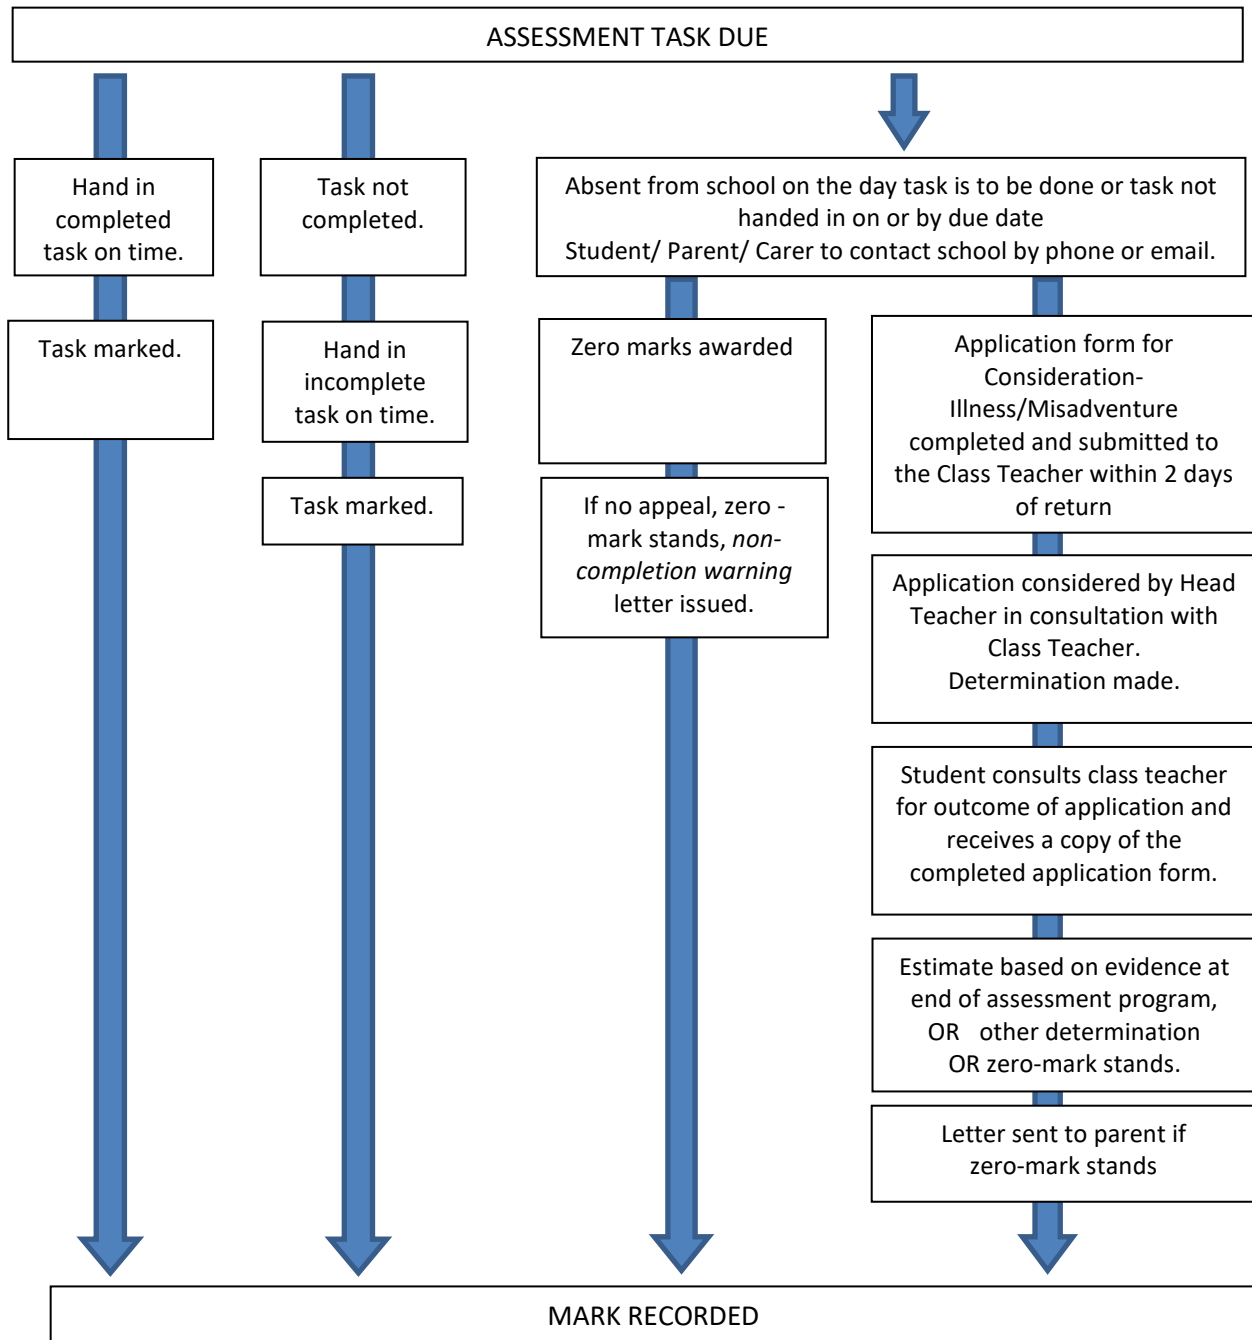

- copying, buying, stealing, or borrowing someone else's work in part or in whole, and presenting it as their own.
- using material directly from books, journals, CDs or the Internet without acknowledging the source;
- submitting work that contains a large contribution from another person, such as a parent, coach or subject expert, that is not acknowledged;
- paying someone to write or prepare material that is associated with a task, such as process diaries, logs, and journals.
- using any artificial intelligence software in any capacity.

These examples are generally referred to as **plagiarism**.

Students who submit work for assessment purposes that contain evidence of plagiarism may be awarded a zero mark for the task. A student may make an appeal. It will be the student's responsibility to prove to an appeals panel at FGHS that the submitted work in question is their own.

ASSESSMENT FLOW CHART

If a student knows beforehand that they are going to be absent on the day that an assessment task is due, or is to be conducted, the student must notify their class teacher beforehand.
